## About TOPCOOL

TOPCOOL is specialized in providing innovative solutions to the agricultural ventilation industry.

Our primary goal is manufacturing systems and offering technical solutions which are cost-effective, reliable, and profitable to our clients.

We offer a full range of fans and accessories. All aimed to be a major advantage to our customers.

By understanding how much our customers invest and their dependency on perfectly working equipment and performances, we are committed to delivering products in the most accessible and cost effective way.

Our team of experts from Canada, United States of America and Europe, having the expertise and experience in all aspects of farming, we have the obligation to deliver the highest standards in all our activities.

## Why We Are Different?

◆ **QUALITY:**  
TOPCOOL products designs are based on North American knowledge & technology.

◆ **PERFORMANCE:**  
TOPCOOL products have authentic testing report from different independent laboratories : AMCA, Bess lab (USA) , China Agricultural University.

◆ **SERVICE:**  
TOPCOOL has a exceptional team of people and partners which will meet your requirement and standards.

◆ **PRICE:**  
TOPCOOL products are more cost effective because we are a vertical integrate manufacture. Our aim is to produce the best product at the lowest price!

◆ **WARRANTY:**  
TOPCOOL understands quality is a priority, and we manufacture our product with only the best raw materials available on market.
